**THAT'S IT!!!** 😊

## TREATMENT PROTOCOL

The amount of HP (Hydrogen Peroxide) for a single treatment can be between 1 and 3 cc of the 3% food grade HP solution. Each treatment is typically 10 to 15 minutes long. If treating for a respiratory virus and or a runny nose or slightly sore throat is already present, undergoing 10- to 15-minute nebulization sessions roughly four times daily or until a symptomatic relief is realized should be a good approach. Many individuals report significant improvement within a few hours (or less) after the first treatment. But it would be advisable to persist in these treatments several times daily for at least 24 to 48 hours after you feel everything is completely normal in your sinuses, nose, and throat. This helps to eliminate the possibility of a relapse of clinical infection and associated symptoms.

For some, the 3% of HP concentration results is too much stinging/burning in the nose. For our family or our kids it's not too much. It's just a slightly irritant feeling during a treatment session. This irritation is because the hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) is neutralizing all pathogens in the respiratory tract that are not serving the body. If it irritates you a lot you can dilute the HP solution with a normal saline solution—0.9% sodium chloride in water, or just water. However, the saline tends to have a more soothing effect for some on the throat and mucous membranes than the water. The goal is to utilize the highest easily tolerable HP concentration, while always staying at or below 3%. Nearly everybody can inhale a nebulization of a 50/50 combination of the 3% HP and saline or water without difficulty. In fact, many people immediately feel a sense of relaxation and easier breathing when this is done.

**Prevention/Maintenance-** As it is a completely non-toxic therapy, nebulization can be administered as often as desired. If done on a daily basis at least once a day a very positive impact on bowel and gut function will often be realized as killing the CPC parasites present in most noses and throats becomes eliminated. This stops the continual swallowing of these pathogens and their associated toxins and letting them enter and move throughout the body and blood stream. If daily prevention is not a desired or practical option, the effectiveness of this treatment is optimized when somebody sneezes in your face or you finally get off of the plane after a trans-Atlantic flight. Don't wait for initial symptoms. Just nebulize at your first opportunity.

Remember, HP is naturally found in ALL cells in the body. Hydrogen Peroxide is H<sub>2</sub>O<sub>2</sub>- two parts hydrogen and two parts oxygen. Considering HP has naturally an essential role in normal metabolic function, along with the effective storing and release of oxygen, HP actually serves as an important and **vital nutrient** in the body for healthy cell function. That's why if you want to optimize your health and rid yourself of illnesses or diseases then you should do this miracle treatment protocol **every day!**

The list of chronic illnesses, diseases and health issues that **HP Nebulization Therapy** helps with is TO LONG to list here. It's that amazing! If you have ANY health issues at all then you need to read the attached medical paper in full called - **Rapid Virus Recovery** and start doing this therapy right away! Your health WILL only improve!

Lastly but vitally important is you should **HIGHLY CONSIDER** incorporating high doses of vitamin C daily in your life. Vitamin C is **very different** than any other vitamin, mineral or nutrient that is needed in the body to maintain normal health. In fact a **Nobel Prize** was awarded to Linus Pauling for the **miraculous breakthrough studies** done on its powerful affects to heal the most incurable diseases and illnesses. Linus Pauling, who is the scientist who won the Nobel Prize and devoted his life work to studying vitamin C and its miraculous properties and effects of the human body. Linus Pauling is also the only person in the world to have won two Nobel Prizes. The other Nobel Prize he won was for his work for creating peace in the world. Linus Pauling was a truly amazing soul! Over the years and decades of his

singularly deeply devoted research to vitamin C many "big pharma" companies around the world tried to discredit his work and suppress the truth of this simple and powerfully effective treatment of using high doses of vitamin C to heal and cure all sorts of ailments that most doctors and scientists considered "incurable". The same efforts to discredit and suppress the truth about HP Nebulization Therapy is happening right now. Very sad!

One **vitaly important** thing to understand about Vitamin C and **always remember** is that **anytime** that the human body starts to become sick, ill and the immune system begins to get compromised is when our immune system first naturally goes to our reserves of vitamin C stored in our body and uses it as our first line of defense to fight off any foreign invader and to help heal the body and restore our health. If our reserves of vitamin C that are stored in our body are **low or not available** at all then the virus, disease or illness will continue because the immune system is compromised from not having this vital nutrient our cells and immune system need to battle the toxins or foreign invaders in our body. So taking regular high doses of vitamin C (not the governments "recommended daily value") is **highly recommended!** Start with 2,000mg daily. Google up foods high in vitamin C to learn how to incorporate them into your diet. Or just buy a vitamin C powder (not pills) and add it to your orange juice or drink.

High doses of Vitamin C is **incredibly effective** at killing the coronavirus, especially when used in conjunction with HP Nebulization Therapy. It's a powerful combination! Expect to see truly amazing results and fast! If you want to increase vitamin C's effectiveness in the body and in the cells then try to always take it with Zinc. They are made to work together in incredible ways! They're literally best friends!! \*Note- If you do take Zinc with vitamin C then make sure to take it one hour before a meal or two hours after. It's easier on the stomach.

Nebulization Therapy has been around for over 150 years and has been highly effective at healing and curing many incurable diseases and illnesses. This is because of the unique and highly effective way the medicine is transported into the cells in the body. It's truly miraculous!

Using a nebulizer for vitamin C or other nutrients/medicines is highly effective at killing viruses, especially the coronavirus!

## Important Fact About COVID-19 and Vitamin D

Having normal levels of vitamin D in your body reduces the mortality death rate from COVID-19 by 750%! Yes Vitamin D is a HUGE game changer at combating COVID-19! Vitamin D naturally comes from the sun .

FYI- The Olympic Peninsula has the second lowest light levels in the entire United States! This is why we have one of the highest rates of multiple sclerosis and cancer in the US, directly linked to low Vitamin D levels.

**98.9% of people who died from Covid-19 had low Vitamin D levels.**

yet only...

**4.1% of people who died from Covid-19 with normal Vitamin D levels died.**
